About us

Our story so far

July 2020

My Forex Funds was founded in July of 2020 with the goal of becoming the leading Prop Trading Firm. Our first account type, the rapid gained immediate success with the first trader signing up for the program in the same month to get the first Trader Account.

March 2021

We launched our evaluation Prop Trading program in March of 2021 and gained immediate success with our market leading profit splits and conditions. Since then our company has grown significantly to over 120000 traders from 80 countries. We currently execute over 500 yards (500 billion notional) of monthly volume and have hundreds of funded traders who have passed the evaluation phase

May 2021

My Forex Funds rebrands with a new website and logo set. The bull of My Forex Funds shows the bullish nature of the company and its increasing growth and strength. With over 2000 new users per day the company looks to maintain its bullish trajectory and stream-line services to become the market leading Forex Prop Firm.

Dec 2021

My Forex Funds has been selected as the official Forex Prop Firm for the 2022 Forex Prop Firm Awards.

the company looks to maintain its bullish trajectory and stream-
line services to become the #1 Forex Prop Trading Firm in the world.

Dec 2021

My Forex Funds launches full product automation for its Trader accounts and a new Forex Prop Trading dashboard. Automation increases the companies' growth and market share. Forex Prop Traders can now get their Trader account instantly when they purchase a Prop Trading program

Today

My Forex Funds is one of the leading Forex Prop Trading Firms. With over 300 staff world-wide and 2000+ customers per day from around the globe, it has cemented itself as a market leader. My Forex Funds is currently working on expanding its business into similar niches to offer Funded trading accounts to more people who wish to benefit from their skills.

My Forex Funds lives by the motto of "Your Success is Our Business"

Our company is interested in assisting traders, helping them grow so that we can grow with them.

We strive to provide programs, services and information that assists people interested in the FOREX, CFD's or commodities markets to become more profitable, self-sustainable and efficient when trading.

We care about our people which is why we refer to all of our traders including those who have not entered one of our programs as the MFF Family and welcome them with open arms and dialogue should they wish to embark on their career to become a professional trader.

Company News

MyForexFunds February statistics are here!

March 9, 2022

It has been a very hectic few months at MyForexFunds so we haven't been able to get the stats blogs out and with the change of our old system to the new a lot of the data was inaccurate, we did try to compile them, but the numbers were too off to publish.

Now that the majority of accounts are operating on the new trading server, we are happy to bring present to you the statistics for February 2022, but lets' keep it brief:

Earn as a professional trader

Our Prop Firm has multiple programs to start your journey as a Forex Funded Trader. Choose one of our funding programs and start trading, earn bonuses and profit-splits.

Rapid
(Some Knowledge)

Evaluation

We have started posting some stats on Instagram and facebook every week, including our weekly stats for payouts and Tuesdays' best trader, best symbol, worst symbol stats. Be sure to give us a follow on Instagram to stay up to date on those stats. We will likely change our stats blog to weekly as our new reporting system is updated and we can produce the numbers clearly for the public to digest.

It is important to note that with our largest month for payouts came our largest profit for the company. We are thriving with our customers' and we are starting to expand. We will have more information out shortly on our expansion plans.

Happy trading!

MFF Staff

Meet the MyForexFunds Staff – Murtuza Kazmi CEO

May 23, 2022

Can you introduce yourself?

My name is Murtuza Kazmi, aged 37, and I live in Toronto Canada. In my spare time I like spending time with my kids and wife. I also try to watch Netflix (The Office is one of my favorite shows). I also enjoy playing sports (American football, Badminton and Cricket).

How long have you been working at MFF? What were you doing before?

I am the creator of our FX Trading prop firm. We did a 6 month pilot program before going live to public in July of 2020. Before starting MFF I was working in technology and IT risk and compliance.

In which team are you working at MFF?/What is your position?

I work with group of great leaders in MFF to guide and steer our funded trader programs success. I am the Chairman and CEO.

Earn as a professional trader

Our Prop Firm has multiple programs to start your journey as a Forex Funded Trader. Choose one of our funding programs and start trading, earn bonuses and profit-splits.

Rapid
(Some Knowledge)

Evaluation

I am the creator of our FX Trading prop firm. We did a 6 month pilot program before going live to public in July of 2020. Before starting MFF I was working in technology and IT risk and compliance.

In which team are you working at MFF?/What is your position?

I work with group of great leaders in MFF to guide and steer our funded trader programs success. I am the Chairman and CEO.

What interests you about working at MFF?

I started MyForexFunds to be an FX Prop Trading Firm with a personal touch without all the hidden rules. Till today we push to make sure that our staff are present with our funded traders and we all find success together. Seeing the success of traders and staff within the company inspires me to keep pushing forward.

What is your typical workday like?

In the beginning of the company, I was involved in all aspects of the business from trading to support and back-office operations. Nowadays I deal more with the company financials and corporate element to the business. My day can range from meetings with vendors to banking and onto IT acquisitions. I generally always find time to spend with family throughout at the day. Being a global business means no day is the same.

Can you share your best experience at MFF?

Since the beginning of our evaluation funded trader program, I have been getting messages from some of our early starters when I was more directly accessible. Almost every time they get paid, they send me a message to thank me and talk about their success. Any day that this happens is what I would consider a best experience. Hearing how MFF has changed peoples lives or assisted in career progression is always inspirational.

Do you remember your hardest day at MyForexFunds?

Yes, early on when we used to have trade server and website outages. There was one instance where I didn't sleep or eat for like 20 hours straight. My wife thought I was a zombie when it all finished. The team was small back then and everyone was wearing different hats – however we were always there for each other and helped in any way possible. Now that the team has grown to 250+ members, we are still always here for each other to ensure our traders and our community is served well. All these growing pains that have occurred at times are when we experience an explosion of new traders joining our ranks. Although we hope we get that explosion of new traders again we certainly hope the pain doesn't come with it.

Whats it like working with the team at MyForexFunds?

It's rewarding and enlightening. Since we have so many members of our team from different countries and cultures, you get to learn something new all the time. We make a point of hiring across all geographies to ensure that our image fits our traders image. We have thousands of traders from all

Rapid Account

Our Rapid account allows our traders to earn bonuses from day one while working with our FOREX and CFD's trading prop firm and the risk management aspects that come with it

Accounts

Introduction

My Forex Funds Rapid account program is built to reward traders for their time while assessing the trader as they learn to trade with a demo account. The account sizes range from \$10k to \$100k. Bonuses are paid on a bi-weekly or monthly basis.

My Forex Funds' Rapid program's ultimate goal is to gain a three month snap-shot of the traders capabilities before giving them access to our live trading funds. The advantage of the Rapid program is that you are getting bonuses whilst being assessed so your time is rewarded during the first three months despite your trading being in a demo environment. There is no time limit in Rapid model.

MFF rules

1

5% Daily Drawdown

You must not have a 5% drawdown based on your balance or equity on your account within a 24 hour period starting 00:00 server time.

Always remember:

$\text{Drawdown \%} = [1 - (\text{lowest equity or balance for the day}) / (\text{starting equity or balance for the day})] \times 100$

2

12% Overall Drawdown

Your account must not go down by 12% (realized/unrealized) to balance or equity.

For example:

if you have a \$100,000 account, then 12% of that is \$12,000. So if your account goes lower than \$88,000 then your account has violated the overall drawdown rule

3

Being Consistent

We have a very black and white consistency rule.

See Consistency Rule for more details.

Don't like it? you can simply ask us to give you a NCA (non-consistency account).

4

3 Days / Week

A trader must enter one trade for at least 3 days a week. **We call it 3 trading days a week rule.**

However, if you for some reason you don't think you can manage that due to personal, health, etc. reason – just email us! We will make sure that this doesn't have a negative impact on your account.

5

No Restrictions

You can trade any instrument available, any lot size you wish at any time.

6

Payout increases!

Your payout increases over time as you grow with our company going from simulated to live account!

Rapid Program Benefits

6 points to remember

Earn!

01

Earn whilst you learn

Our Rapid program enables you to take your time in becoming a professional trader whilst earning along the way. Whether you are part time or full time you get rewarded for your success.

Product Range

02

Large product range

Trade your favorite products to kick-start your career! There are over 100 instruments available to trade and earn.

Accounts

03

Consistency and Non-consistency accounts!

You can choose which Rapid account type is best for you. Show us your skills with the consistency account or trade your own parameters with the non-consistency!

No Target

04

No evaluations or targets

Get started without having to take any tests. Lose the stress of having to reach a time limited target and trade at your own pace!

Low Cost

05

Low-cost entry into professional trading!

Get started at a low cost and dip your toes into what its like being a professional trader. Choose the program and fee that is right for you and upgrade as you earn!

Time

06

Take your time!

You can take your time growing and not having to worry about how many calendar days remaining in your trading. Take it slow or fast, whatever works for you.

No evaluations or targets

Rapid Rules

Our programs rules and guidelines are the backbone of our vision and business goals. These rules must be followed at all times whilst you are trading with our program. We recommend these rules even if you aren't trading in our program as they enforce good trading behavior and long term profitability. These rules will enable you to control your emotions and trade with proper risk management as the core of your trading. 1. Hopefully this enables you to be successful and profitable in both the long and short term

Rule #01

Trade with pleasure

It is important that you are comfortable and happy when trading. Try not to stress yourself, have a trading plan in place and earn without risking your own capital. Psychological well being are important in any trading plan. If you are not enjoying yourself whilst trading, perhaps make it your plan to rest on days you are unhappy. Its important to have fun and enjoy your trading experience. Our program has some rules that if you stick to them it may increase your profitability and also increase happiness. Stick to the rules and have fun.

Rule #02

Trading Frequency & Consistency

We want you to succeed and not be glued in front of your screen 24/7. That being said, you **must** enter a minimum of 1 trade per day for a minimum of 3 days a week. This will enable us to filter and assess your trading skills (while you earn money) and graduate the traders who are serious about trading to bigger opportunities.

As you enter one trade per day on at least 3 days a week, we want to remind you to ensure to follow risk and account management closely (see below).

Only fully executed trades will count towards this requirement. This does not mean you must open AND close a trade. If you have placed a trade and it has executed, it will count towards your daily target of 1 trade. If you do not meet the minimum trades per day requirement, your account will be flagged for violation and you will not be eligible for further payouts.

[Read More](#)

We will use your broker's time zone to determine opening and closing of each trading day. You must follow the minimum days a week rule regardless of your P&L. For example, if you make profit on your first trade, you cannot abruptly stop trading for that week. You must enter 3 trades on 3 different days to meet your minimum trade requirement. Any indication of "gambling" or erratic behavior change (i.e. increase in LOT sizes, trades per day, risk per trade etc.) will result in account termination with no payment being made. **The following will apply to consistency enabled accounts.** A safe way to increase or decrease your risk parameters is to keep within +/- 200% of your average or deviation by a factor of 2. Two main KPI we use here are trades and lot size. Each week, we will take an average of mentioned KPIs and place a ceiling (avg x 2) and floor (avg / 2) for the trades. Any trades outside these parameters will raise a flag on an account and be a possible violation. Example:

Day	Trades (#)	Lots traded (#)
1	4	9
2	5	12
3	3	9
4	2	3
Average	3.5	8.25
Max (Avg x 2)	7	16.5

3	3	9
4	2	3
Average	3.5	8.25
Max (Avg x 2)	7	16.5
Min (Avg / 2)	1.75	4.125

In the above example, lots traded fall outside of our minimum based on the average based min required. This will cause a flag/violation. Between weeks, we would like our traders to stay consistent as well. Like the rule above, we allow for a deviation by factor of 2. For example, if week # 1, an average for number of trades and lots traded are 10. The following week, you may increase your average to 20 (avg x 2) or reduce it to 5 (avg / 2). Any more or less will be considered a violation in consistency. This calculation is only done by using the current and prior week averages. Any flags in above consistency rule will not cause suspensions, however trader will not be paid for that particular pay period. The profits made during the period where there were consistency flag(s) will not count towards any future payouts as well. Furthermore, any profits made in the account during this period will not count towards live account deposit. For example, if a trader's account value is at \$9,500 and he/she trades in an non consistent way and brings account balance to \$10,500. Not only they will not be paid, but their account value will be reset to \$9,500 (or the value it was before the inconsistent trading week(s)). If a trader is consistently falling outside of his/her trading pattern, that may raise a violation which will cause account suspension. If you plan to change your style and trade more aggressively or moderately, you must inform us at least 48 hours before and obtain an approval in writing from My Forex Funds.

Rule #03

Trading Behavior and FOREX trading Expert adviser / robot usage

At My Forex Funds our goal is to encourage you, the trader to remain consistent and hopefully profitable so that you can earn from your talent. We recommend you to refine what you know and keep a trading plan and abide by that plan. Our goal as a company is to find profitable, successful traders and encourage up and comers to become more consistent and profitable and form a long-term partnership. There are no rules or restrictions on your trading style so long as you are consistent in what you do throughout your pay cycles. You provide us with a plan, you must follow it. We allow a deviation factor of 2 however anything beyond 2 will be considered a violation.

[Read More](#)

NB: This rule is for CEA accounts My Forex Funds does not implement any restriction on products that you can trade so long as it is available in the trading platform, Metatrader 4.

Drastic changes in lot sizes, risk percentage per trade and other variables will be flagged and may lead to pay suspension for that month. Frequent violations will lead to termination. **Expert Advisors/bots are allowed.** We do not allow arbitrage trading, quote stuffing or EA's that update orders in high volume per hour. We must protect our infrastructure, and this is the only way we can do this. Trade copying of your own trades is allowed, however, copying a third parties trades is not allowed and if discovered will be considered a breach. We recommend against usage of FOREX signal providers when participating as a prop firm trader.

Rule #04

Account Types details and house keeping

We will be providing you with login details after you sign up with us. You are not allowed to change these details under any circumstances.

Furthermore, you are not to add or decrease any funds from your account. If we detect any changes (password, account size, etc.), we will suspend your account and cancel any profits that are to be made to you.

You have to trade yourself. You may learn from experts, but should not use any signals or bots for trading. How do we check? If we find a "magic number" on your trade, or any other indication that you have been copying trades, your account will be subject to suspension.

You accounts will be monitored for performance, analytics and to ensure all above rules are being followed.

Rule #05

Trader's earning (2 WAYS TO EARN!)

First way to earn (aka your Expertise Earning or "EE")

Consistency Enabled Account (CEA) – On an account that you sign up for – you will be paid 12% on a bi-weekly basis. Your earnings will depend on being successful and not committing any violations in the trading period. Consistency rule (see rule #2) apply to CEA accounts.

No Consistency Account (NCA) – On an account that you sign up for – you will be paid 12% on monthly basis. Consistency rule will NOT apply to NCA accounts.

Second way to earn (aka your "Funded earnings or FE)

Consistency Enabled Account (CEA) – On an account that you sign up for – you will be paid 12% on a bi-weekly basis. Your earnings will depend on being successful and not committing any violations in the trading period. Consistency rule (see rule #2) apply to CEA accounts.

No Consistency Account (NCA) – On an account that you sign up for – you will be paid 12% on monthly basis. Consistency rule will NOT apply to NCA accounts.

Second way to earn (aka your "Funded earnings or FE)

For every dollar you earn on your simulated account, we will match and put it in your trading account for up to 3.5% of your account size (i.e. Maximum of \$350 allocated to Funded Account on a \$10,000 account). You will be able to access this trading account when you reach 10% of the account you signed up for. The live account will be worth 10% (all funds transferred) of the original trading account size. If you have signed up for different tiers (we will use 10% of the combined tier). Minimum time that you can start trading your FE account is 3 months. Furthermore if you violate any drawdown rules, your funded account will reset. This ensures that our traders are consistent over a period of time (minimum of 3 months) before being made responsible for company funds.

Our live accounts are on our own server from an institutional technology provider with multiple liquidity sources connected to it.

Rule #06

Bonus Payout

The bonus from your accounts will be paid on a bi-weekly basis via one of our payment options. You can request your payout via Cryptocurrency or DEEL. If you wish to receive your payout in Cryptocurrency, then you can receive BTC, LTC, ETH and USDC. With Deel, you will be able to withdraw your payouts with Wise, Paypal, Bank transfer, Payoneer, Revolut, Mercury etc.

Rule #07

Profit Sharing

On the account you sign up for – you will make 12% of all profits you make while trading. There is no profit sharing in this case as you will be trading on a simulated account. This payout is considered an expense for us in-order to find top traders that can manage our funds.

[▲ Read More](#)

For Consistency Enabled Accounts, if you make \$5,000 on your \$100,000 account, you will be eligible for a \$600 pay out. This is a bi-weekly payout and does not reset after the end of 2 weeks. If you make another \$5,000 in the following two weeks, you will be paid 12% of 10,000 = \$1200, as the account does not reset between pay cycles in the same month. However, you will need to make a profit per pay period (this could be as little as \$1.00) to get paid in pay period. For No Consistency Accounts, you will be paid 12% of all profits you make during that month. The profit amount is derived by the lower value of the realized or unrealized equity of the account.

A month is considered 4 weeks. You will be given your payout dates upon registration.

On a funded account you will receive 50% of the profits you make in the first month. This goes up to 65% during your second month and 80% during the third month onwards. Keep in mind, you will not be allowed to withdraw the capital on this account as that will be funded by our firm and those funds are considered our invested capital.

Rule #08

Risk and Account Management

In any account size, you must not have a drawdown of 5% or higher in a trading day (floating drawdown – calculated with equity, or balance, at any given time). This will be monitored closely and if violated will result in account suspension.

$\text{Drawdown \%} = [1 - (\text{lowest equity or balance for the day}) / (\text{starting equity or balance for the day})] \times 100$

Furthermore, you must not have a drawdown of 12% or higher overall throughout your pay period.

These two rules (5% and 12% drawdown), along with consistency (Rule #2) will be monitored closely and if violated will result in account suspension. Account suspensions can be reset by paying account sign up cost minus 20% (i.e. for 10K account – account sign up fee is \$99. Reset fee will be \$95).

Rule #09

No trader at My Forex Funds is liable for any financial losses. We only request that you adhere to proper risk management techniques and maintain the capital as best you can. At no time will you 'owe' any money to our company as a trader.

At My Forex Funds our goal is to encourage you, the trader to remain consistent and hopefully profitable so that you can earn from your talent. We recommend you to refine what you know and keep a trading plan and abide by that plan.

Our goal as a company is to find profitable, successful traders and encourage up and comers to become more consistent and profitable and form a long-term partnership.

Rule #10

Reset Refresh and Monthly Fees

Rule #10

Reset Refresh and Monthly Fees

Reset – If an account incurs a violation, that account will be suspended and will not qualify for any future payouts. If a trader would like to continue with the program, s/he will have an opportunity to continue at a discounted price. This re-registration fees is referred to as “Reset” fees as you will obtain a brand new account.

[Read More](#)

For \$10K account, it is \$79.20. For \$20K account, it is \$151.20. For \$50K account, it is \$319.20. For \$100K account, it is \$599.20.

Refresh – At any time, if a trader would like to bring their account balance to original amount, , the following fee will apply. For \$10K account, it is \$64.35. For \$20K account, it is \$122.85. For \$50K account, it is \$259.35. For \$100K account, it is \$486.85.

Rule #11

Refund of your Registration fees

100% Refund of Account Registration – Your registration fee will be fully refunded along with your first payout on Rapid Live. The refund of the fee will be against the most recent fee of the account with which you qualified for the live account.

Example: If you got to live account phase on your first \$10K account, you will be refunded the \$75 dollar registration fees. However, if you had to reset it in the middle, you will only get the refund on the last fees that you paid towards getting your account. In this case, it will be \$60 that you paid towards resetting your account.

Rule #12

Trading Behavior

Trading activities that are used to take advantage of the inefficiencies of Metatrader. Gap trading, latency arbitrage, Long short arbitrage, Reverse arbitrage, opposite account trading are all unacceptable trading methods with MyForexFunds. Anyone part-taking in such activities will have their trades adjusted to the executed fill price that we have received from the liquidity pool. Repeat offences will result in account termination.

Rule #13

Inactivity

If your account is inactive for 30 days it will be automatically breached. If you do not inform us within 10 days of the breach the reason for the inactivity, the account will be permanently suspended.

This rule is to prevent us having thousands of hedged trades on abandoned accounts. If you are planning to be away for a prolonged period of time, please inform us and we will make sure your account continues.

Rule #14

Clarification on the use of third party software/vendors for trading

As our original rule suggests, it is vital that all trading activity with MyForexFunds is your own. This means that every decision made, every trade made comes from your creation and not the hands of others. Since this rule has been causing requirements for clarity, we have decided to include this rule as an addition to make sure there are no grey areas.

Anyone using any vendor that promotes the passing of a prop firm evaluation or challenge will be banned. These vendors generally do not work, and their usage has resulted in many problems with our liquidity providers and their customers who have failed using these services affiliating us with them in some way. Therefore, any third-party vendor selling any service, whether its account management or an EA, that promotes usage on any prop firm, is forbidden.

The market does not function in a manner where every user can trade the same and it remains efficient. Having pending orders bigger than the market does nothing but ruin the prop firm opportunity for everyone else and so use of such services is prohibited.

We are here to provide capital to aspiring traders and we want this opportunity to last a long time. We will not allow the actions of a few to ruin the experience for the majority of traders who come to us for funding.

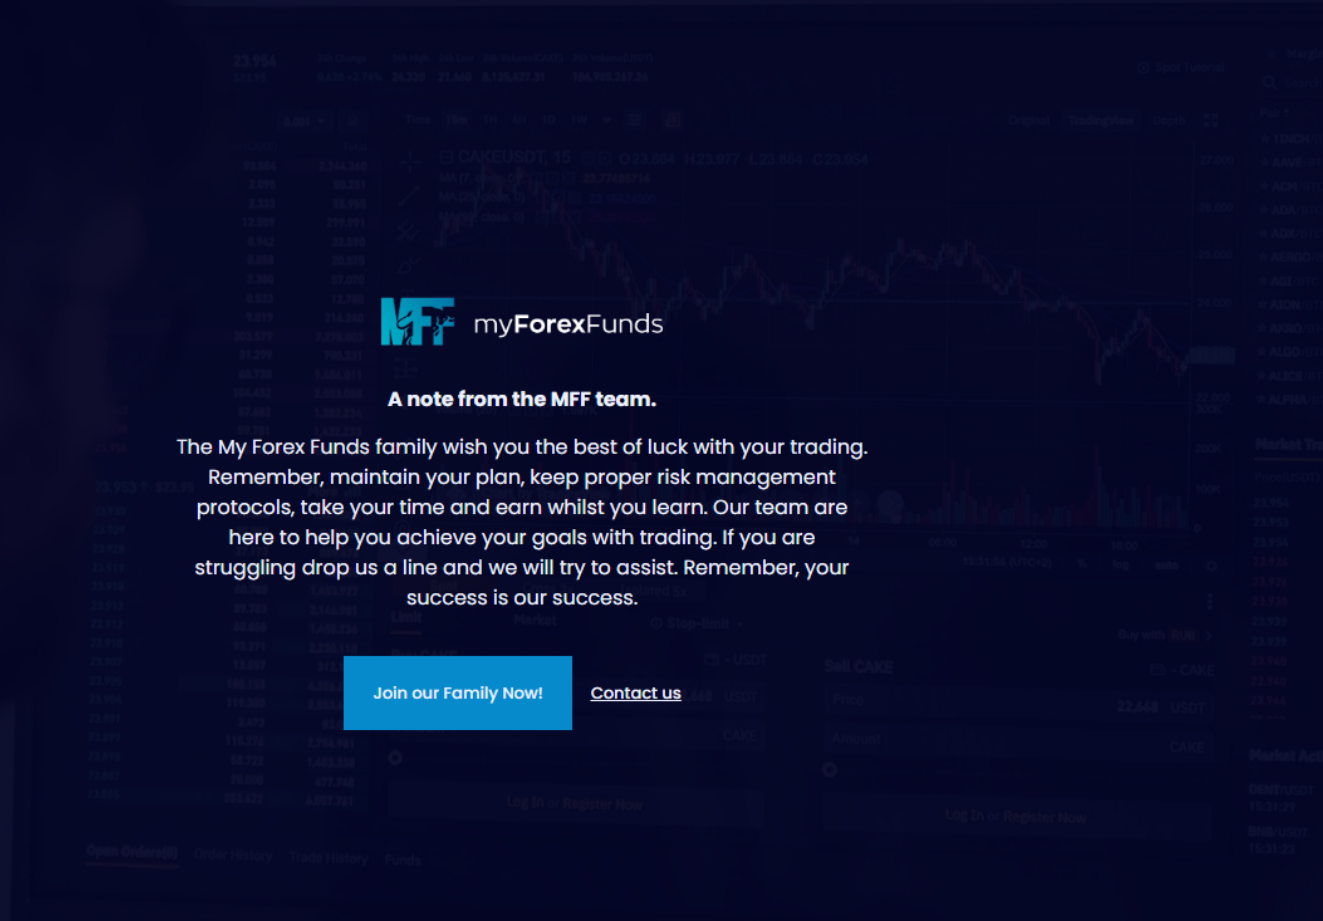

Rule #15

Account Credential Safety

You are responsible for making sure your account credentials are safe. We do not reinstate accounts that have been hacked or distributed to third parties for trading and lost. If your account has been hacked, get in touch with our team so we can lock the account and change the password and run you through security protocols. No reinstatements of accounts will occur so it is important for you to get to us as quick as you can if your account has been hacked.

Account Credential Safety

You are responsible for making sure your account credentials are safe. We do not reinstate accounts that have been hacked or distributed to third parties for trading and lost. If your account has been hacked, get in touch with our team so we can lock the account and change the password and run you through security protocols. No reinstatements of accounts will occur so it is important for you to get to us as quick as you can if your account has been hacked.

A note from the MFF team:

The My Forex Funds family wish you the best of luck with your trading. Remember, maintain your plan, keep proper risk management protocols, take your time and earn whilst you learn. Our team are here to help you achieve your goals with trading. If you are struggling drop us a line and we will try to assist. Remember, your success is our success.

FOREX Funded Account Evaluation

Our Forex Funded Account Evaluation program is built for FOREX traders to prove their skills. Semi-professional traders in need of capital to move to the next level of their career, have the opportunity to show their talent and reach their goals in a quick, two phase process and join our FOREX Prop Firm and become a funded trader.

Accounts

Introduction to our Prop Firm evaluation

Our evaluation program is a two-step process where a potential Funded trader can prove their FOREX, CFD or commodities trading skills. Evaluation trading account sizes range from \$5k to \$300k with profit-split payouts occurring once a month on the first month and then bi-weekly from that point on. A trader can have up to 600k in capital from evaluation accounts but only 300k per trading account.

Through the MyForexFunds evaluation trading account process, we hope to identify serious FOREX Prop Firm traders who display the trading skills required to be successful with a FOREX Prop Firm. Stay consistent, accurate and maintain proper trading risk management skills and we will reward you. Prove your worth and jump to a funded account in as little as 10 days. Or take it easy and pass

1

5% Daily Drawdown

You must not have a 5% drawdown based on your balance or equity on your FOREX trading account within a 24 hour period starting at 5pm EST.

2

12% Overall Drawdown

Your FOREX trading account must not go down by 12% (realized/unrealized) to the initial balance.

For Overall Drawdown:

$$\text{Drawdown \%} = [1 - (\text{lowest equity or balance for the day}) / (\text{initial balance of the account})] \times 100$$

3

8% profit target phase 1

You need to reach the profit target of 8% without breaching any of the other rules within a 30-calendar day period. Your time starts when you open your first trade on your FOREX trading account.

4

5% profit target phase 2

If you successfully complete phase 1, you will need to start on phase 2, where you are required to reach a profit target of 5% without a breach of any of the other rules within a 60 calendar day period. Your time starts when you open your first trade on your FOREX trading account

5

5 trading day minimum

You must trade a minimum of 5 trading days to pass the Prop Firm evaluation. This shows us your ability to be patient and your FOREX trading habits, enabling us to profile your style and skills.

6

No trading restrictions

Trade your FOREX Prop firm account your way, your size, your time. We do not limit the way you can trade. We do recommend that you maintain consistency and focus on risk management as it is important for long term success. Be aware of all rules before starting.

Evaluation Rules

My Forex Funds has one of the simplest program structure to follow which facilitates our traders at funding and start earning from day one!

Quick Search

Rule #01

Take it slow. Observe risk management

You have plenty of time to achieve your target and move to the next phase. Take it slow, observe good risk management techniques. Most traders who pass the evaluation quickly fail on their live account. Be one of the few and not the many. Follow your plan and if you aren't quite at the target at the end of the 30-day period, get in touch, maybe you qualify for an extension or retake!

Rule #02

The Models, Evaluation and establishment phase and targets.

We currently only offer a standard evaluation model. Due to poor success we have removed our aggressive model.

There are two phases you must pass in order to become a funded trader.

[Read More](#)

First the evaluation Phase (Phase I) The evaluation phase is to test your trading skills and give us an idea of what type of trader you are. During the evaluation phase you must achieve a **profit target of 8%** within **30 calendar days** with no other rule breaches. The establishment Phase (Phase II) The establishment phase is just to confirm the results of the evaluation phase. During the establishment phase you must achieve a **profit target of 5%** within **60 calendar days** with no other rule breaches We do NOT have any negative day rules in our programs. A trader can choose when they start the evaluation process. The calendar day countdown starts from the time you take your first trade.

Rule #03

Trading Behavior

Its imperative that you have a trading plan, trading strategy and risk management profile to successfully complete the evaluation.

At My Forex Funds we encourage good trading behavior but do not limit a traders ability to trade in their own style or time.

We **ALLOW** news trading, scalping, long term trading, short term trading etc. on all accounts.

We do not have a lot size restriction for total open lots on a single account however advise all users to be wary of their risk management profile.

Trading activities that are used to take advantage of the inefficiencies of Metatrader. Gap trading, latency arbitrage, Long short arbitrage, Reverse arbitrage, opposite account trading are all unacceptable trading methods with MyForexFunds. Anyone part-taking in such activities will have their trades adjusted to the executed fill price that we have received from the liquidity pool. Repeat offences will result in account termination.

Rule #04

Instruments

We constantly are looking for the best products and best conditions for our traders. Currently you can trade FOREX, CFD's including index CFD's as well as commodities like oil and metals.

Every now and then the product list may be updated based on the availability of margin, leverage, liquidity, and various other factors.

We adjust our products to increase the profitability of our traders where possible. We may remove a product if there are no users currently passing the phases of the evaluations due to those products.

Rule #04

Instruments

We constantly are looking for the best products and best conditions for our traders. Currently you can trade FOREX, CFD's including index CFD's as well as commodities like oil and metals.

Every now and then the product list may be updated based on the availability of margin, leverage, liquidity, and various other factors.

We adjust our products to increase the profitability of our traders where possible. We may remove a product if there are no users currently passing the phases of the evaluations due to those products.

Crypto trading on weekdays is allowed.

Rule #05

Expert Advisers & robot usage

We allow Expert adviser/robot trading on your accounts. We no longer require you to send us your source code unless there is suspicion of the following:

Tick scalping, Arbitrage, signals from a 3rd party, gap trading, account management services or any other services that break our other rules.

Using third party expert advisers is OK so long as it is not managed or traded by another party. All signals must be your own and based on your own set up.

Prop trading is about your ability to trade and not about using other peoples ability to trade.

Rule #06

Account types, details and house keeping

After program purchase you will receive your login details within 24-48 hours. You are not allowed to change the details of this account under any circumstances. Doing so will be a breach and your account will be suspended.

At My Forex Funds, we are looking for individual traders to grow with us long term. What this means is that we want YOU to be the trader. Its ok to learn your skills from other experts, however, use of signal bots, trade management services or trade copiers will not be accepted. If we notice someone using these services, we will suspend their account.

This rule may not apply if you have submitted your expert adviser or bot for prior approval and approval has been granted.

We are constantly monitoring all accounts to make sure the rules are being followed.

Rule #07

Profit-split

The most important question our traders have is "when do we get paid". You you will receive your first payout 1 month after you place your first trade in the live account.

The first payment is monthly and every payment after that is bi-weekly.

[Read More](#)

Month	Profit-split
First	75%
Second	80%
Third	85%

For the first month of live trading you will be required to trade a minimum of 10 days and first month's payout will be initiated after one whole month. This minimum day requirement is removed on the second month.

All payout requests must be sent to billing or submitted via our internal back-office system.

Our live accounts are being held on the Traders Global Group server using metatrader 4.

In order to receive 50% of your profits if you have violated your account and it is in profit you must comply with the following 3 parameters:

- 1) You must have a stop loss on every trade
- 2) You must not be "all-in" on your trades and violate from a single trade or single batch of trades

In order to receive 50% of your profits if you have violated your account and it is in profit you must comply with the following 3 parameters:

- 1) You must have a stop loss on every trade
- 2) You must not be "all-in" on your trades and violate from a single trade or single batch of trades
- 3) You must have traded 10 trading days.

Note: If you have compiled all 3 rules mentioned above, you will have to contact with us in 7 days after the violation for the profit split. Any request about the 7 day period will be rejected.

Rule #08

Getting paid

If you have reached your profit-split time, firstly, congratulations. You may request your pay out from the 'Pay out request' button on your analyzer. In case, the pay out request button is still not enabled, please get in touch with billing@myforexfunds.com.

You can request your payout via Cryptocurrency or DEEL. If you wish to receive your payout in Cryptocurrency, then you can receive BTC, LTC, ETH, USDC and/or with Deel, you will be able to withdraw with Wise, Paypal, Bank transfer, Payoneer, Revolut, Mercury, etc.

Rule #09

Scaling up (To the moon)

My Forex Funds offers a competitive scaling up plan so that we grow with you. If you have achieved a profit of 10%(and withdrawal) or more within a 4 month period and 2 of those 4 months were profitable, we will increase your account size by 30% of the original account size.

At the time of scale up request, trader should be breakeven or positive with the account balance.

Rule #10

Drawdown rules

In any of the My Forex Funds evaluation programs you must not have a daily drawdown of 5% of equity OR balance on any given day. This is monitored closely by an automated system, includes open trades at the time of roll-over and any breach is shown in your account dashboard. Please be mindful of your trading and be sure to check your available drawdown at 00:00 server time every day.

[▲ Read More](#)

On top of the daily drawdown, we have an overall account drawdown of 12% for any pay period. Breaching this will result in a termination of your account.

If you breach your daily drawdown rules whilst in profit. A review will take place to determine whether you followed proper risk management practices (no excessive position size, trade numbers etc.) and we may, at our discretion, issue you your profit share at the time of termination. If, however, you participate in risky trading and breached the daily drawdown, you will not receive payout of your profits for a breach of the daily drawdown whilst in profit.

If you receive an account suspension or termination, you may reset your account for program cost -10%.

Rule #11

Losses

No trader at My Forex Funds will be liable for any trading losses. All being said, we encourage you to practice good risk management practices and engage in a trading plan to maximize your chances of not incurring a loss.

Rule #12

Retakes and extensions

My Forex Funds are always encouraging traders to practice good, safe trading. Those that do, shouldn't be punished.

If your Phase I 30 day limit is reached and you are in profit without any breaches on the account you are entitled to **2 free extensions of up to 14 days each** OR unlimited free retakes.

Our extension is only offered to users who are in profit and trade using proper risk practices. Users who do not breach however do not have consistency or risk practices in their trading are only entitled to a free retake. Trade safely, be consistent, get rewarded.

Rule #13

Resets

If you find that you have breached one of the rules, you are entitled to a discounted reset of that account. Mistakes can happen, and we understand that. We want

Rule #13

Resets

If you find that you have breached one of the rules, you are entitled to a discounted reset of that account. Mistakes can happen, and we understand that. We want you in our team so if you have breach the rules enjoy the following discounted prices:

10k – \$75.60
20k – \$125.10
50k – \$269.10
100k – \$449.10
200k – \$881.10

Rule #14

Refunds

All traders who pass Phase 1 and Phase 2 will receive a refund of their fees when they reach their first profit-split period at the end of the first month on their live trading account.

A trader qualifies for a payout and refund only if they have made:

- \$50 in profit on a 5k, 10k, and 20k account
- \$100 in profit on a 50k to 100k account
- \$150 on a 200K to 300K account

Updated 30/12/22

Rule #15

Account Credential Safety

You are responsible for making sure your account credentials are safe. We do not reinstate accounts that have been hacked or distributed to third parties for trading and lost. If your account has been hacked, get in touch with our team so we can lock the account and change the password and run you through security protocols. No reinstatements of accounts will occur so it is important for you to get to us as quick as you can if your account has been hacked.

Rule #16

Inactivity

If your account is inactive for 30 days it will be automatically breached. If you do not inform us within 10 days of the breach the reason for the inactivity, the account will be permanently suspended.

This rule is to prevent us having thousands of hedged trades on abandoned accounts. If you are planning to be away for a prolonged period of time, please inform us and we will make sure your account continues.

Rule #17

Clarification on the use of third party software/vendors for trading

As our original rule suggests, it is vital that all trading activity with MyForexFunds is your own. This means that every decision made, every trade made comes from your creation and not the hands of others. Since this rule has been causing requirements for clarity, we have decided to include this rule as an addition to make sure there are no grey areas.

Anyone using any vendor that promotes the passing of a prop firm evaluation or challenge will be banned. These vendors generally do not work, and their usage has resulted in many problems with our liquidity providers and their customers who have failed using these services affiliating us with them in some way. Therefore, any third-party vendor selling any service, whether its account management or an EA, that promotes usage on any prop firm, is forbidden.

The market does not function in a manner where every user can trade the same and it remains efficient. Having pending orders bigger than the market does nothing but ruin the prop firm opportunity for everyone else and so use of such services is prohibited.

We are here to provide capital to aspiring traders and we want this opportunity to last a long time. We will not allow the actions of a few to ruin the experience for the majority of traders who come to us for funding.

myForexFunds

A note from the MFF team.

Our **Accelerated Program** is for you

Start Now

MFF rules

1

5% or 10% Overall drawdown

There are no daily drawdown limits.

Overall drawdown is set to 5% for Conventional accounts and 10% for Emphatic.

For example, If you have a \$50,000 conventional accelerated account, then 5% of that is \$2,500. So if your balance/equity goes lower than \$47,500 then your account has violated the overall drawdown rule.

2

Up to 1:100 Leverage

Your leverage will be set to 1:100 leverage on Emphatic and 1:50 leverage on Conventional for FOREX and Metals like gold.

Your leverage will be set to 1:100 leverage on Emphatic and 1:50 leverage on Conventional for Forex, Metals and CFDs.
Maximize your gains whilst controlling your risk and reap the rewards.

3

Scaling at every 20%*

Your account will scale by 2x or 1.5 x (depending on which phase you are on). You are eligible to scale once every pay period.

*Your account will scale at every 10% for conventional account.

4

\$2 Million USD Cap

Our largest accounts can scale all the way to \$2 Million USD

5

No Shares Allowed

Due to the nature of these accounts, we cannot allow trading in shares in our Accelerated program. You may however trade all your other favorite products like FOREX, CFD's, Crypto and Metals.

6

Weekly Payouts

Get your profit split every week. You can receive your first payment within a week, however your account must be of 5 days of age in order to be eligible for a payout. All payouts must be requested by 3pm EST or they will move to the next pay period.

Read all rules

Accelerated Program Benefits

6 points to remember

Profit Split

01

No profit targets for payout

Get paid no matter how much you make. Your rewards are in your hands

Lowest Targets

02

Scale up with success

We have a competitive scale up program that will help you reach your goals as soon as possible. After scaling you can reach an account size of \$2,000,000!

Low Cost

03

No time limits

Trade at your own pace, earn at your own pace. We will not push you to earn and threaten your account. If you grow, we grow.

Lot size

04

No lot size limits

We don't restrict your trading. Trade at the size you wish, however, remember consistency and risk management is the key to being a profitable trader.

No Restrictions

05

No consistency rules

Trade once, trade twice, trade one hundred times. Whatever works for you. We only make money if you make money so trade how you are comfortable.

Drawdown

06

No daily drawdown

These accounts have no daily drawdown limits. You can only lose when your overall drawdown reaches 5% for Conventional, %10 for Emphatic. Compound at your will but remember, always move forward, don't go backwards.

We don't restrict your trading. Trade at the pace of your wish, we've got you covered. Consistency and risk management is the key to being a profitable trader.

Trade once, trade twice, trade one hundred times. All levels of risk are yours. We only make money if you make money so trade how you are comfortable.

These accounts have no daily drawdown limits. You can only lose when your overall drawdown reaches 5% for Conventional, %10 for Emphatic. Compound at your will but remember, always move forward, don't go backwards.

Your Rewards

How, When & What?

You are paid 50% of the total profit generated on your account every week. Your account must be 5 days old in order to be eligible for a weekly pay out. All payouts must be requested to billing by 3pm EST and are processed within 1-3 days. You can request a payout by Bank Transfer, Cryptocurrency, Transferwise or Paypal.

Accelerated Rules

Quick Search

Rule #01

Slow and Steady – Wins the Race

My Forex Funds has developed this model to ensure that our serious traders can earn from the word go. Not only will we provide our traders with funding, we have also curated this model to enable our traders to scale up and scale up fast!

Rule #02

Bonus Disbursements:

A trader will be given 50% of all profits made on My Forex Funds' Accelerated Accounts. There are one of two ways a trader can request a payout.

[Read More](#)

1 – Trader of the day/week – We will pick the most profitable or most consistent trader of the day/week and allow him/her to request a payout. This method gives an incentive for traders to be profitable and get paid right away. If you impress us, we will get you paid fast.

2 – A trader may request a payout on a WEEKLY basis. Yes! Another industry first – MFF will allow for weekly withdrawal requests. They will be processed and paid out within 1-3 business days. Please note that it takes a minimum of 5 days between every payout unless the trader reaches the profit target.

*One thing to remember for both ways is that you must keep the account for at least 5 days after the first trade before requesting for a payout.

Rule #03

Targets and Scale Up Program

My Forex Funds' new and innovative scale up program ensures that a trader can trade up to 970K to 2MM without having to worry about restrictions on lot sizes or news trading and having an amazing scale up plan with industry leading drawdown parameters.

Each phase will start with a base amount a trader will register for. From that point on, with each milestone of hitting 10% profit, and 20% for emphatic, a trader's account will be scaled up by 2x or 1.5x, depending on the phase. Complete scale up program below.

2x to 1.5 will happen in alternate fashion till the traders account reaches the maximum allocated trade account size.

Accelerated Scale-Up Program

Skip the evaluation and get started right away with our Accelerated Program

Conventional Model									
	Phase 1	Phase 2	Phase 3	Phase 4	Phase 5	Phase 6	Phase 7	Phase 8	Phase 9
\$2,000	4000	6000	12000	18000	36000	54000	108000	162000	324000

Conventional Model									
	Phase 1	Phase 2	Phase 3	Phase 4	Phase 5	Phase 6	Phase 7	Phase 8	Phase 9
\$2,000	4000	6000	12000	18000	36000	54000	108000	162000	324000
\$5,000	10000	15000	30000	45000	90000	135000	270000	405000	
\$10,000	20000	30000	60000	90000	180000	270000	540000		
\$20,000	40000	60000	120000	180000	360000	540000	1080000		
\$50,000	100000	150000	300000	450000	900000	1350000			

Emphatic Model										
	Phase 1	Phase 2	Phase 3	Phase 4	Phase 5	Phase 6	Phase 7	Phase 8	Phase 9	Phase 10
\$2,000	4000	6000	12000	18000	36000	54000	108000	162000	324000	486000
\$5,000	10000	15000	30000	45000	90000	135000	270000	405000	810000	
\$10,000	20000	30000	60000	90000	180000	270000	540000	810000		
\$20,000	40000	60000	120000	180000	360000	540000	1080000	1620000		
\$50,000	100000	150000	300000	450000	900000	1350000	2020000			

With MyForexFunds Accelerated program we allow professional traders to skip the line and jump right into trading real funds. Grow quickly with our compounding rewards and reap the benefits of being a professional trader.

NB: We are beholden to the liquidity providers. For larger accounts over 500,000 there may be leverage limitations that will be discussed PRIOR to you scaling up beyond that level. We will work with you as best we can to ensure the best trading conditions for that account size.

Rule #04

Drawdown

We have taken the guess work out of drawdown and given our traders one of the simplest drawdowns out there in industry, **overall drawdown**. The Conventional model will carry a 5% overall drawdown and the Emphatic model will come with 10% overall drawdown.

In our accelerated program, overall drawdown will be calculated based on an accounts' or the scale up phase's starting balance.

For example, if a trader is starting with a 10K emphatic account, they will have an overall drawdown of \$1,000.

However, that scales up to 20K in the next phase. The trader will now have 10% of the starting balance for that phase which equates to \$2,000!

Rule #05

Restrictions

A trader must close all of his/her trades over the weekend.

This is to ensure and preserve capital, remove liquidity risk and prevent drawdowns larger than allowed. Traders who have a trade left open during the weekend will be automatically suspended from the program.

However, there are no restrictions when it comes to lot sizes, trading during major news events or holding overnight.

Rule #06

Instruments

We constantly are looking for the best products and best conditions for our traders. Currently you can trade FOREX, Crypto, CFD's including index CFD's as well as commodities like oil and metals.

Every now and then the product list may be updated based on the availability of margin, leverage, liquidity, and various other factors.

We adjust our products to increase the profitability of our traders where possible. We may remove a product if there are no users currently passing the phases of the evaluations due to those products.

Every now and then the product list may be updated based on the availability of margin, leverage, liquidity, and various other factors.

We adjust our products to increase the profitability of our traders where possible. We may remove a product if there are no users currently passing the phases of the evaluations due to those products.

Rule #07

Expert Advisers & robot usage

We allow expert adviser to copying purposes only.

Any EA/Robots being used on the account otherwise will cause a breach in contract and loss of account. Unfortunately, this is necessary to prevent changes to the liquidity pool and unforeseen changes in spreads, margins and etc. We do plan on offering an automated trading option in the near future. Users' are welcome to copy trades of their own using a trade copier, however, users who are copying someone else's trades will be considered in breach of their account.

Rule #08

Account types, details and housekeeping

After your program registration, you will receive your login details within 1-2 hours. The account will be on read-only mode until we verify your KYC documents. You are not allowed to change the details of this account under any circumstances. Doing so will be a breach and your account will be suspended.

At My Forex Funds, we are looking for individual traders to grow with us long term. What this means is that we want YOU to be the trader. Its ok to learn your skills from other experts, however, use of signal bots or trade copiers of other traders will not be accepted. If we notice someone using these services, we will suspend their account. We can tell that this is happening by the magic number on the account.

This rule may not apply if you have submitted your expert adviser or bot for prior approval and approval has been granted.

We are constantly monitoring all accounts to make sure the rules are being followed.

You must send your required KYC documents and Independent Contractor agreement to verification@myforexfunds.com

[Read More](#)

Proof of ID: You can send any official government issued identification such as the following: – Driver's License – Birth certificate – Passport **Proof of address:** You can send any official document that provides your name and address such as the following: – Bank statement – Utility Bill – Phone Bill – Tax Documents

Rule #09

Losses

No trader at My Forex Funds will be liable for any trading losses. However, we encourage you to practice good risk management practices and engage in a trading plan to maximize your chances of not incurring a loss, allowing you to stay in the game long term and make as much as possible.

Rule #10

Refunds

Once trading has started, there will not be any refunds. However, if you have just registered and the account has not been traded on, we can refund your registration fees.

Rule #11

Account Credential Safety

You are responsible for making sure your account credentials are safe. We do not reinstate accounts that have been hacked or distributed to third parties for trading and lost. If your account has been hacked, get in touch with our team so we can lock the account and change the password and run you through security protocols. No reinstatements of accounts will occur so it is important for you to get to us as quick as you can if your account has been hacked.

Rule #12

Trading Behavior

Trading activities that are used to take advantage of the inefficiencies of Metatrader. Gap trading, latency arbitrage, Long short arbitrage, Reverse arbitrage, opposite account trading are all unacceptable trading methods with MyForexFunds. Anyone part-taking in such activities will have their trades adjusted to the executed fill price that we have received from the liquidity pool. Repeat offences will result in account termination.

Rule #13

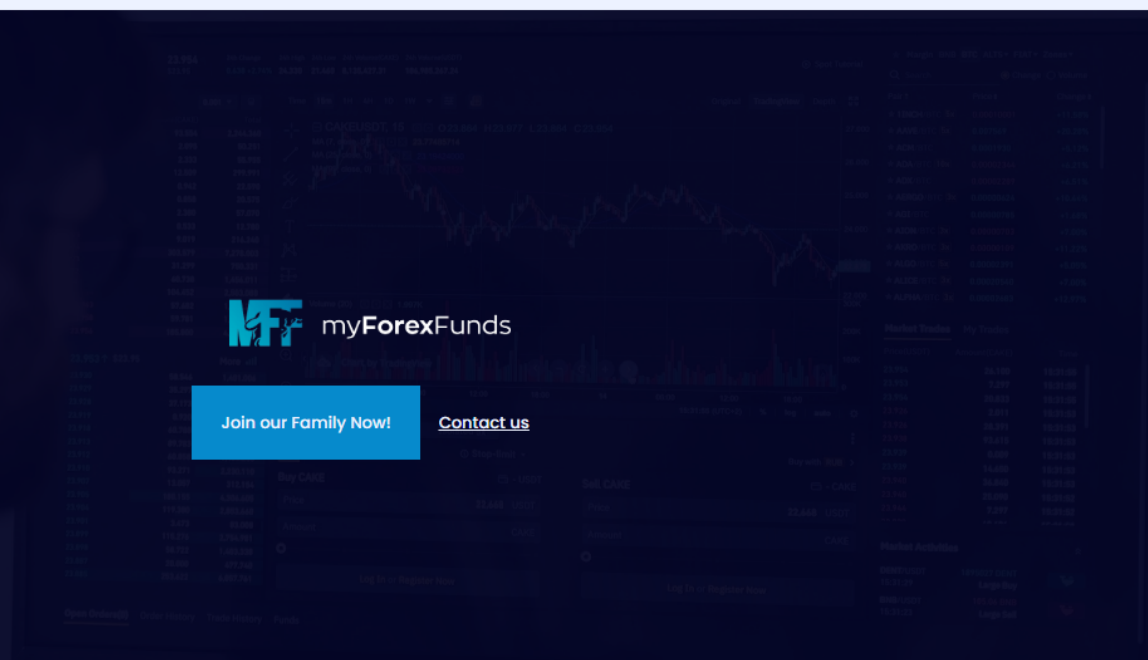

Trading activities that are used to take advantage of the inefficiencies of Metatrader. Gap trading, latency arbitrage, Long short arbitrage, Reverse arbitrage, opposite account trading are all unacceptable trading methods with MyForexFunds. Anyone part-taking in such activities will have their trades adjusted to the executed fill price that we have received from the liquidity pool. Repeat offences will result in account termination.

Rule #13

Inactivity

If your account is inactive for 30 days it will be automatically breached. If you do not inform us within 10 days of the breach the reason for the inactivity, the account will be permanently suspended.

This rule is to prevent us having thousands of hedged trades on abandoned accounts. If you are planning to be away for a prolonged period of time, please inform us and we will make sure your account continues.

Start Now

MFF rules

1

5% or 10% Overall drawdown

There are no daily drawdown limits.

Overall drawdown is set to 5% for Conventional accounts and 10% for Emphatic.

For example, If you have a \$50,000 conventional accelerated account, then 5% of that is \$2,500. So if your balance/equity goes lower than \$47,500 then your account has violated the overall drawdown rule.

2

Up to 1:100 Leverage

Your leverage will be set to 1:100 leverage on Emphatic and 1:50 leverage on Conventional for FOREX and Metals like gold.

Your leverage will be set to 1:100 leverage on Emphatic and 1:50 leverage on Conventional for Forex, Metals and CFDs.
Maximize your gains whilst controlling your risk and reap the rewards.

3

Scaling at every 20%*

Your account will scale by 2x or 1.5 x (depending on which phase you are on). You are eligible to scale once every pay period.

*Your account will scale at every 10% for conventional account.

4

\$2 Million USD Cap

Our largest accounts can scale all the way to \$2 Million USD

5

No Shares Allowed

Due to the nature of these accounts, we cannot allow trading in shares in our Accelerated program. You may however trade all your other favorite products like FOREX, CFD's, Crypto and Metals.

6

Weekly Payouts

Get your profit split every week. You can receive your first payment within a week, however your account must be of 5 days of age in order to be eligible for a payout. All payouts must be requested by 3pm EST or they will move to the next pay period.

[Read all rules](#)

Accelerated Program Benefits

6 points to remember

Profit Split

01

No profit targets for payout

Get paid no matter how much you make. Your rewards are in your hands

Lowest Targets

02

Scale up with success

We have a competitive scale up program that will help you reach your goals as soon as possible. After scaling you can reach an account size of \$2,000,000!

Low Cost

03

No time limits

Trade at your own pace, earn at your own pace. We will not push you to earn and threaten your account. If you grow, we grow.

Lot size

04

No lot size limits

We don't restrict your trading. Trade at the size you wish, however, remember consistency and risk management is the key to being a profitable trader.

No Restrictions

05

No consistency rules

Trade once, trade twice, trade one hundred times. Whatever works for you. We only make money if you make money so trade how you are comfortable.

Drawdown

06

No daily drawdown

These accounts have no daily drawdown limits. You can only lose when your overall drawdown reaches 5% for Conventional, %10 for Emphatic. Compound at your will but remember, always move forward, don't go backwards.

We don't restrict your trading. Trade at the pace of your wish, we've got your consistency and risk management is the key to being a profitable trader.

Trade once, trade twice, trade one hundred times. All levels of risk are yours. We only make money if you make money so trade how you are comfortable.

These accounts have no daily drawdown limits. You can only lose when your overall drawdown reaches 5% for Conventional, %10 for Emphatic. Compound at your will but remember, always move forward, don't go backwards.

Your Rewards

How, When & What?

You are paid 50% of the total profit generated on your account every week. Your account must be 5 days old in order to be eligible for a weekly pay out. All payouts must be requested to billing by 3pm EST and are processed within 1-3 days. You can request a payout by Bank Transfer, Cryptocurrency, Transferwise or Paypal.
